

# Cristiano Ronaldo redefining age

Devarshi Mehta

## Introduction

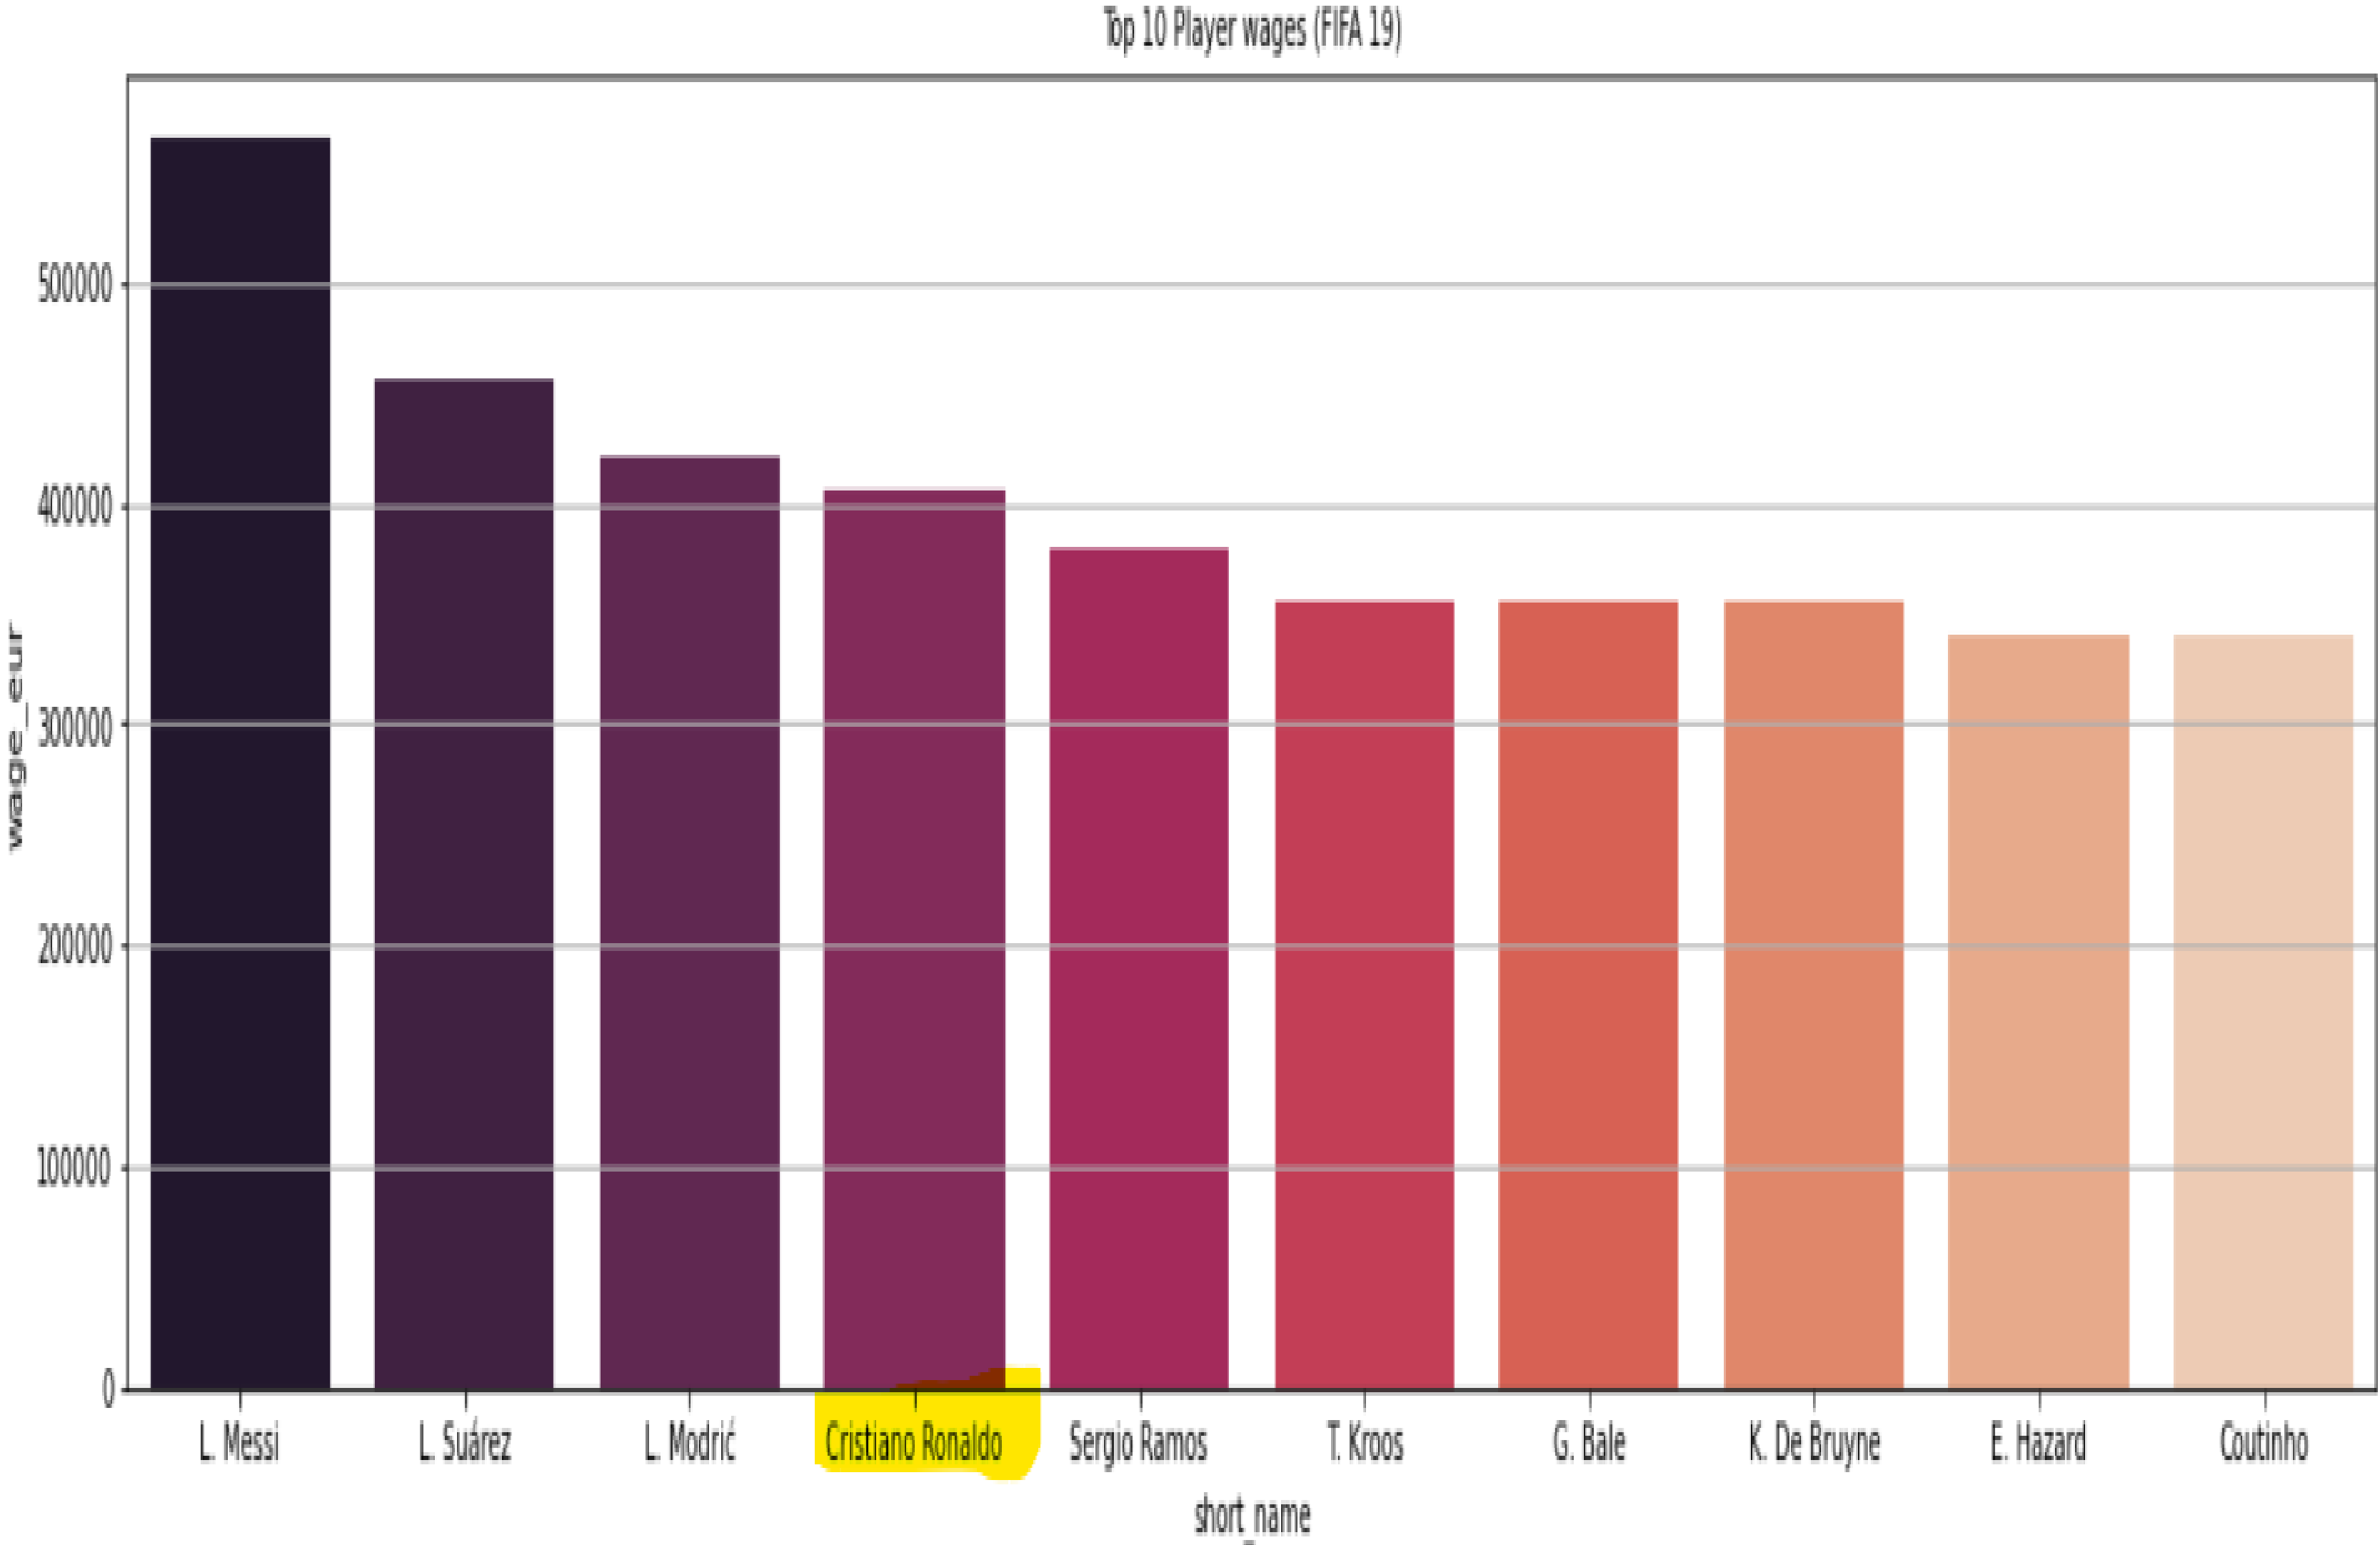

We have heard that age is just a number. Well, we all do realize that age is a big factor in sports and especially in a sport like soccer (more commonly known as football). I would like to take this opportunity to show you all who Cristiano Ronaldo is and how he has been redefining age in the world of football.

For this project, I will be using two datasets that uses data from the FIFA game. The reason why I chose to use the game data is because the game data does a great job with evaluating each player and their stats every year. Due to this, I decided to take FIFA 19 and FIFA 20 datasets.

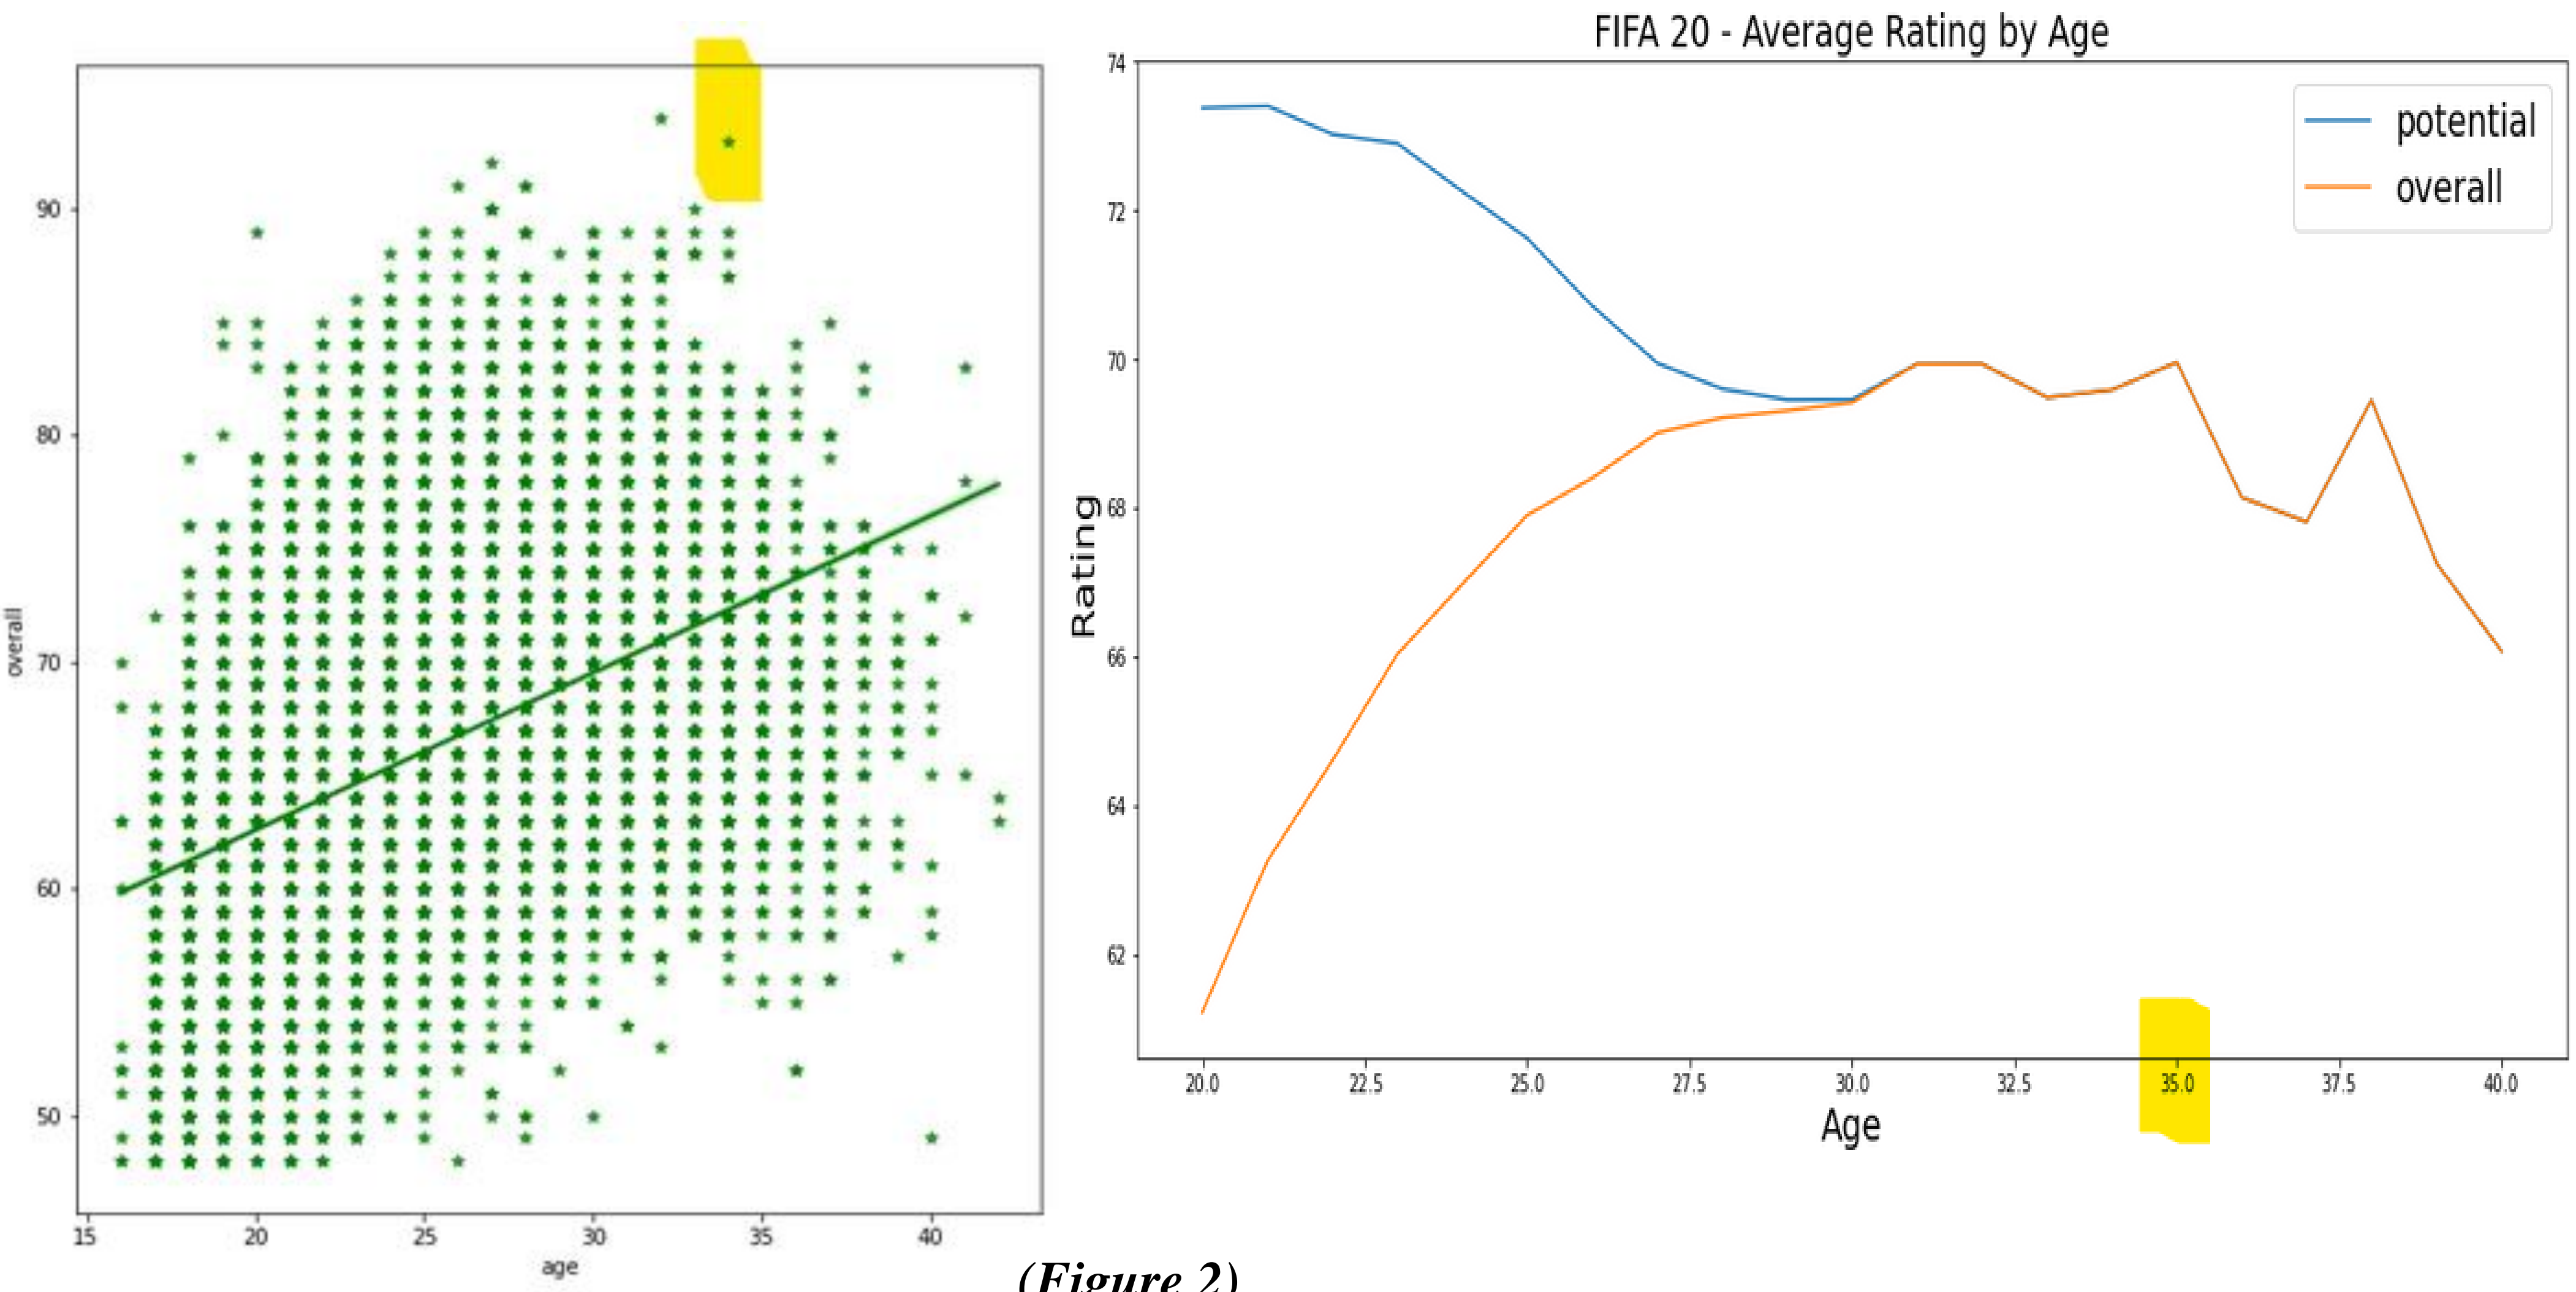

The main goal of this project is to compare Cristiano Ronaldo to one of the highest ranked players in the world and notice how his stats have changed from 2019-2020.

## Analysis

- We began with regular data analysis of each dataset to make sure we have the correct information we need and only keep the valuable factors for our project.
- I decided to break down the comparison in couple different parts where we will see Ronaldo getting compared to the other great players of the world.
- Our first step is to look at Ronaldo and what his wages are compared to the other players. **(Figure 1)**

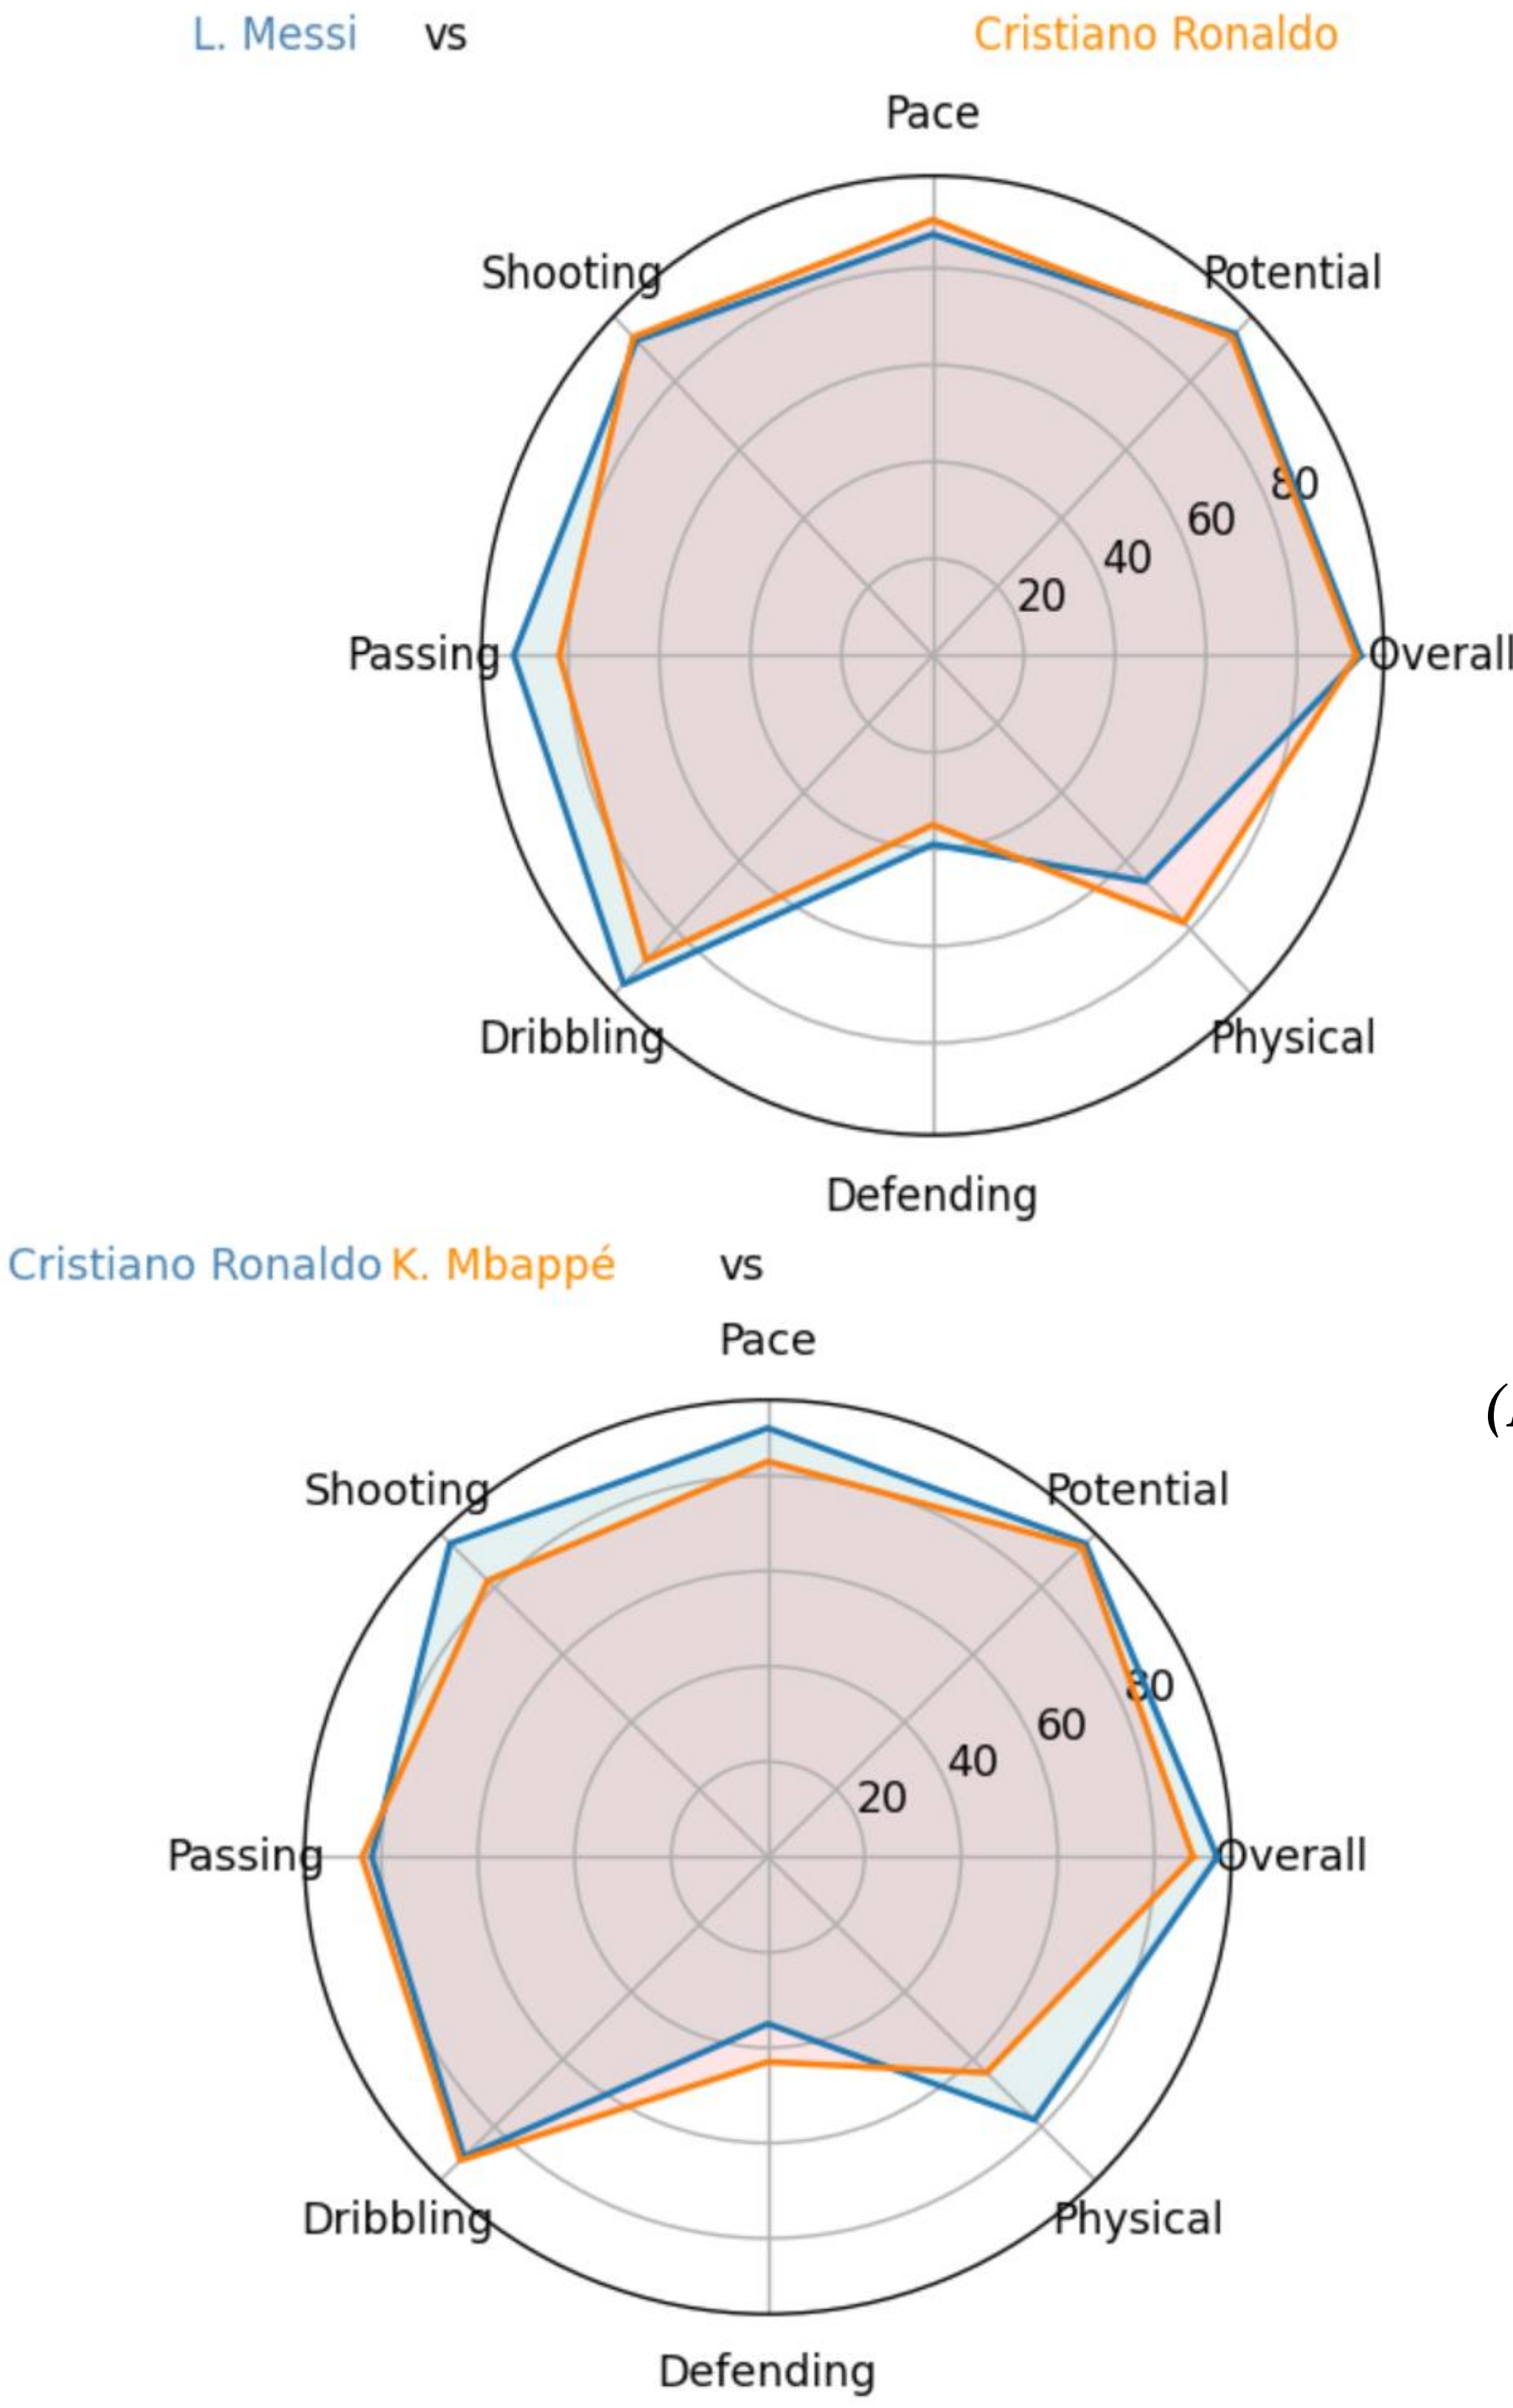

(Figure 1)

(Figure 2)

- Next, we look at Ronaldo being compared to all the players around his age.
- If we look at **(Figure 2)**, we notice that Ronaldo outshines everyone around
- His age and shows everyone how consistent he is.
- For the final comparison, I decided to compare Ronaldo with Lionel Messi (Rivalry) and Kylian Mbappe (Best Youngster in the game). The radar chart comparison is inspired by the game visuals and shows us how great Ronaldo truly is considering he is older than both.

(Figure 3)

## Conclusion

- Cristiano Ronaldo has made his name in the world of football with sheer hard work and talent. He has been consistent throughout his career which started at the age of 17.
- Looking at his stats from year 2019 and year 2020 using the FIFA game stats, I display his impressive record at such an age.
- Looking at his wages from 2019 and in 2020, he managed to keep his wages the same but moved up a rank showing others declined but he did not.
- Next, everyone at Ronaldo's age is about 60-70 rating whereas he is at impressive 91 rating.
- Last being compared to the other best player and the best youngest player currently, he shows his class again with similar or better stats.
